

**PRODUCT SHEET 2011**

**Residential  
Pool & Spa**

Premium Model – 50,000 gallons

Unquestionably the finest copper/silver ionization system in the world. 120 settings digitally controlled. Unique electrode chamber for easy monitoring. Includes built-in ScaleBlaster. Works on 115 or 230 vac automatically.

**RC-50 - \$1,595**

**- Economical Models -**

**20,000 Gallon Capacity**

Handles up to 20,000 gallon pools in mild weather climates, 10,000 in hot weather. 6 settings. Self-contained electrode chamber.

**R-20 - \$945**

**40,000 Gallon Capacity**

Handles up to 40,000 gallon pools in mild weather climates, 20,000 in hot weather. 6 settings. Self-contained, see-thru electrode chamber.

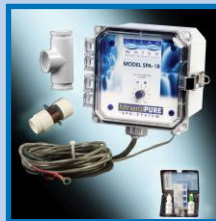

**R-40 - \$1,045**

**- SPA Models -**

**Outdoor Installation**

Handles up to 1000 gallon hot tubs. Designed for indoor or outdoor installation. Self-contained, see-thru electrode chamber.

**SPA-1R - \$645**

**Indoor Installation**

Handles up to 1000 gallon hot tubs. Designed for indoor or covered installation.

**SPA-2R - \$545**

**- Commercial Pools -**

All new commercial units with state-of-the-art circuitry design. Over 200 precise settings. Includes weather-proof box, 6" copper/silver electrode. Upgrade to "Biggie" size electrode for \$70 more per electrode. Please specify 3" or 4" pipe size for tees. Also specify regular tees or cross-tees (holds two sets of electrodes).

**75,000 Gallon Capacity**

System includes one electrode cell and tee.

**CS-75 - \$1,995**

**150,000 Gallon Capacity**

System includes two electrode cells and tees.

**CS-150 - \$3,990**

**225,000 Gallon Capacity**

System includes three electrode cells and tees.

**CS-225 - \$5,985**

**300,000 Gallon Capacity**

System includes four electrode cells and tees.

**CS-300 - \$7,980**

**450,000 Gallon Capacity**

System includes six electrodes and tees.

**CS-450 - \$11,970**

**600,000 Gallon Capacity**

System includes eight electrodes and tees.

**CS-600 - \$15,960**

## - Cooling Towers -

All cooling tower models are sold by ScaleBlaster, Inc. All units include a certified 7" long 90% copper / 10% silver electrode. Higher silver content electrodes of 80% copper / 20% silver also available. Specify 3" or 4" pipe size.  
All new circuitry board design for 2011. Over 200 settings. Schedule 80 pvc.

### Up to 600 ton system

System includes one electrode cell and tee.  
**CT-75 - \$2,995**

### Up to 1200 ton system

System includes two electrode cells and tees.  
**CT-150 - \$5,990**

### Up to 1800 ton system

System includes three electrode cells and tees.  
**CT-225 - \$8,995**

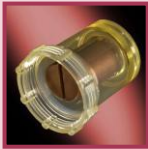

### Up to 2400 ton system

System includes four electrode cells and tees.  
**CT-300 - \$11,980**

## - Replacement Electrodes -

#### RC-50

For RC-50, RS-50 models-complete 3" electrodes sealed in clear jar, "O"ring and hardware.  
**CLE-11 - \$169.95**

#### 6" Commercial

For all CS models-sealed in 3" threaded plug.  
**CLE-05 - \$199.95**

#### 10" Biggie Commercial

For all CS models- 40% larger. Sealed in 3" threaded plug.  
**CLE-25 - \$259.95**

#### Old R-150 Model

3" long in 2" threaded plug-for our old models 20 years old now and many competitors!  
**CLE-03 - \$139.95**

#### 90/10 Cooling Towers

7" long sealed in 3" sch 80 plug. 90% copper, 10% silver.  
**CLE-20 - Call for pricing**

#### 80/20 Cooling Towers

6" long sealed in 3" sch 80 plug. 80% copper, 20% silver.  
**CLE-14 - Call for pricing**

#### SPA-1R

1 1/2" electrode in transparent capsule. For SPA-1R units.  
**CLE-01 - \$124.95**

#### SPA-2R

1 1/2" electrode sealed in 2" plug. For SPA-2R units.  
**CLE-26 - \$89.95**

#### R-20/40

3" electrode in transparent capsule. For R-20 or R-40 units.  
**CLE-02 - \$149.95**

## - Test Kits -

#### Copper - Ion Test Kit

Complete replacement kit - for all ionization systems.  
**CLA-41 - \$24.95**

#### A/B Reagents

A & B reagents only for CLE-11 kit  
**CLA-42 - \$16.50**

#### Taylor Complete

pH, chlorine, total alkalinity, calcium hardness, cyanuric acid. Ideal for serviceman.  
**CLA-11 - \$84.95**

#### TDS - Digital

Handheld - displays up to 2000 ppm.  
**CLA-24 - \$84.95**

#### Calcium Hardness

Recommends proper ScaleBlaster model.  
**CLA-139 - \$30.00**

#### Sequestering Agent

Made by Jack's Magic  
**CLA-23 - \$69.95**

#### Phosphate

Made by Lamotte. Low range in ppb  
**CLA-92 - \$39.95**

#### Guardex 4 in 1

Ideal for homeowner  
**CLA-62 - \$39.95**

#### pH - Digital

Handheld - digital display  
**CLA-37 - \$84.95**

#### POOL STAIN TREAT

Removes stains - made by United Chemical  
**CLA-10 - \$22.00**
